

## AUTOMOTIVE SUNSHADE MANUFACTURING

# Automotive sunshades. Made for your brand.

OEM and private-label sunshades from Dongguan, China. Develop panoramic roof, side window and windshield products for your brand, import or distribution business. Production starts at 100 pieces per style.

Product illustration · final construction follows the approved sample.

## 100 pieces per style

OEM / PRIVATE LABEL

DONGGUAN, CHINA

# Four product families.

Compare panoramic roof shades, side window shades, windshield sunshades and snow covers. Specify your vehicle, materials, logo and packaging before sample development.

## 01 Panoramic roof shades

Removable textile shades developed around the roof opening, trim and attachment points of the target vehicle.

## 02 Side window shades

Develop shape, coverage and attachment around the window and its intended use. Discuss framed or curtain-style constructions.

## 03 Windshield sunshades

Foldable interior covers for parked vehicles. Specify windshield dimensions, storage format and branding.

## 04 Windshield snow covers

Exterior covers for parked vehicles. Define coverage, fastening and material requirements for the destination market.

Product illustration · final construction follows the approved sample.

These are product development categories. Materials, dimensions, fitment, attachments and packaging are agreed for the project and confirmed by the approved sample.

# A better brief. A better fit.

Send the following information to prepare a product review and quotation.

- 01 Vehicle model, generation / year and country of sale.
  - 02 Photos of the roof or window, interior trim and intended attachment area.
  - 03 Desired construction, coverage, colour and quantity per style.
  - 04 A reference sample, dimensioned drawing or agreed vehicle trial.
- 

## Tesla roof shades: confirm the generation.

Tesla distinguishes older and newer Model Y roof accessories, a separate Model Y L product, and roof versus liftgate shades. Model 3 references show separate front and rear roof panels. Removable mesh and manual retractable shades are different constructions.

Tesla sources describe Tesla accessories. They do not verify Saisi fitment, materials, clips, performance or a Tesla supply relationship. Confirm vehicle market, build period and roof configuration, then approve a sample on the target vehicle.
